

# Invisible protection and why you need it

SunTek Paint Protection Film utilises revolutionary new technology to protect one of your biggest investments. A tough barrier providing invisible protection for your vehicle from stone chips, scratches, scuffs, insect stains and other road debris. This stretchable and long-lasting film is moulded to the high impact areas of your car, keeping it looking brand new for longer.

## Features

- ✓ A tough barrier to eliminate damage caused by rocks, insects, salt and other road debris
- ✓ A proprietary self healing top coat – your scratches and chips disappear with engine or sun's heat
- ✓ Nano-technology construction to create a strong solvent-resistant barrier
- ✓ High gloss top coat to match your pristine paint finish
- ✓ Superior optical clarity for invisible protection
- ✓ Can be easily removed at any stage, helping to improve the resale of your vehicle in the future
